LOCAL MATTERS.

To Correspondents. We are continually receiving communications on political and other matters from persons who do not attach their proper names to the articles sent; and we take this occasion of repeating that nothing can be published in THE DAILY NEWS without being indorsed by some responsible individual.

Mr. Vogler, of the Central News Depot, No. 108 Market street has our thanks for late copies of the Round Table, New York Staats-Zeitung, and Kriminal Zeitung. Mr. V. is in receipt every evening of all the New York dailies.

THE LONDON QUARTERLY REVIEW for January presents the following table of contents: 1. Charles LAMB and some of his Companions. 2. The Cholora Conference. 3. Books of Fiction for Children. 4. Crime in the State of New York. 5. The Weck's Republic in Palermo, 1866. 6. Game and Game Laws. 7. Ultra-Ritualism. 8. Yankee Humor. 9. English Democracy and Irish Fenianism.

-0-THE WESTMINISTER REVIEW, for January, sent us by Mr. John Russell, has the following table of contents: 1. The Battle of Sadowa and Military Organization. 2. The Ethics of Aristotle. 3. The Ladies' Petition. 4. Winckelmann. 5. Irish University Education. 6. Edmund Spenser. 7. Social Reform in England. 8. Reform and Reformers. 9. Cotemporary Literature.

THE ARGOSY for March has come to hand. We cannot consider this an interesting number. Even "The History of ROBERT FALCONER," the first chapters of which pleased us very much, is beginning to become very prosy. A running satire of Calvinism may be very interesting to some parties, but it strikes us is not exactly the thing in a novel for general readers. Mr. JOHN RUSSELL is the agent for the Argosy.

CHANGE OF SCHEDULE .- Our readers, and particularly the travelling public, will be pleased to learn that on the 13th inst. a change will be perfected that will greatly facilitate the travel between Columbia and Augusta. Under the new schedule the trains now leave Columbia at 11.40 A. M.; arrive at Kingville at 1.20 P. M.; leave Kingville at 1.35 P. M.: arrive at Augusta at 9.00 P. M. This change is far preferable to the former unseasonable hours. and the innovation is due to the Superintendent, Mr. H. T. PEAKE.

WE WOULD call attention to the advertisement of Mr. Wm. G. MAZYCK, the Librarian of the Charleston Library, asking for a file of the Charleston courier from February 10th, 1865, to April 16, '66. Complete sets of the different city papers are always kept in this Library for public reference, and any parties having the copies needed would confer a benefit on the community by furnishing them to the Library. The papers on file in this institution are now in the bookbinder's hands, and it is very desirable that complete sets be obtained before the binding is completed.

EQUITY SALES .- By direction of James Tupper, Esq., Master in Equity, a quantity of valuable real estate will be sold this day at the Old Custom House. The property advertised consists chiefly of houses and building lots in different parts of the city; also, the plantation on Cooper River known keeping Lent, assumed a horizontal position in as Strawberry, and other tracts of land in different portions of the State. This sale presents opportunities for investment that are seldom equalled, and police, and was charged \$5 for his ignorance of capitalists who can afford to let their money lie idle for a time will find it to their interest to attend.

THE NEW YORK STEAMERS.—We are pleased to notice, from an advertisement in another column, that the splendid sidewheel steamer South America is to be placed upon the line between New York and Charleston. This vessel is, we learn, not only the finest, but the fastest, ship in the Southern trade, and with the Quaker City will give us at least one sidewheel steamer every week. The number of fine ships running between the two ports is fast increasing.

We also learn that the same advantages derived by Savannah from the fierce opposition among the steamers at that port last year are likely to be enjoyed by the Charleston merchants, as a bitter strugg.e is said to be imminent among the various lines here. We say let it come.

WE WOULD call the attention of purchasers to the advertisement of Mr. J. N. Robson, Agent for DUPONT'S Powder. He has a large and complete stock, "hich will always be kept up, and which he will daily deliver to any part of the city. The Messrs. Dupont commenced the manufacture of powd 1801, and have kept their powder up to the standard, and an experience of thirty years with their former Agents here have always given complete satisfaction. Their establishment is one of the largest in the United States, capable of turning out one thousand kegs daily, with a capital of over two million dollars invested, thus giving a guarantee that purchasers can depend on what . they get. Mr. Rosson is prepared to sell at lowest market rates, and, indeed, as low as it can be ordered from the factory in small lots.

THE CHARLESTON WATER WORKS COMPANY.-By reference to our advertising columns it will be seen that the Commissioners appointed by the Legislature will open this day the books of subscription to the stock of this Company, at the Bank of the State of South Carolina. As only a small portion of the capital is required from the citizens of Charleston, we anticipate that this amount will be

readily subscribed. The City Council, our insurance offices, the Board of Fire Masters and fire companies, together with our merchants, will, without doubt, subscribe liberally. The enterprise is one of incalculable importance, not only to the safety of property, and for the prevention of disastrous and wide-spread conflagrations, from which we have so often suffered, but as a sanitary measure its benefits will be equally felt and appreciated.

THE R.-E. LEE.-This miniature fire engine, manned (?) by a juvenile crew, passed our office yesterday, and recognized the supremacy of the press by three lusty cheers. Their machine is apparently fit for action, and the young aspirants for fame fully capable of testing its powers to the utmost. From their calling it is fair to presume that they are a band of infantry that can stand fire, and have entered upon their amateur duties with a prospect of graduating in the Department at an early day. They attracted considerable attention during their march, and showed, by their proud deportment, that the R. E. Lee was a good machine and worthy of their regard. The company numbers some twenty-five members, and is governed in every respect like those of a larger growth. It was incorporated on the 22d of February, and is controlled by the following offi-

G. H. FULLER, President. W. J. PRINCE, Vice-Pr-sident.
W. J. PRINCE, Vice-Pr-sident.
H. V. WILLIMAN, First Director.
W. THOMAS, Second Director.
J. THOMAS, First Foreman.
N. MARSHMAN, Second Foreman.
W. J. MAGRATH, First Axeman.
C. J. McNELTY, Second Axeman.

MIRE LIPMAN'S CIRCUS .- A wondering crowd of gaping darkies collected at the different corners the gorgeous posters that had changed the dingy wall into a huge picture gallery. A Circus is now, thanks to the reconstruction, no novelty; but from the posters we would judge that the LIPMAN Troupe can remove the dilapidated linen from the shrubbery, and will be the biggest show that our city has witnessed for some time. The Citadel Green will be again the centre of attraction, and the canvas be nightly crowded with an admiring andience of different shades and colors.

MIKE LIPMAN has been on an extended ern tour, and his fame has gone abroad over the land. He is now delighting the citizens of Savannah, but will scon make his appearance among us. His avant couriers are now here, and that is a sure sign that the mighty MIKE is not far behind. The Circus will open in the early part of next week, and from the fondness of our community for such amusements it will meet with a flattering recep-

Auction Sales.—Tuesday has always been a day a false humanity. In the change demanded, the upland set apart for auction sales, but never since the blockade era have we been called upon to chronicle a cargo sale equal to that which will take place today under the anspices of Messrs. CLIFFORD & MATHEWES. The goods will be sold from the United States Bonded Warehouse on North Atlanthe Wharf, and will comprise the cargoes of the Gladstone and Paul et Marre. The articles to be sold are principally liquors, wines, choice groceries and crockery, and as they are of direct importation many bargains are anticipated by the knowing ones. The terms are very liberal and the sale occurs at a propitious time, when merchants are replenishing their stocks preparatory to the spring and Mrs. Winslow's Soothing Syrup an invaluable

trade. Estables are always in demand, but it is friend. It cures dysentery and diarrhos, regulates the seldom that an opportunity occurs to purchase both the dishes and their contents, and a spirited bidding is anticipated. Considerable interest has poon manifested in this sale, and as quite a number of country merchants are now in the city the attendance will no doubt be large, and the competition between the local business men and the strangers be more lively than auction sales usual-

GRAND OPENING .- King street is the most popular thorougfare in the city and deserves its reputation, for the proprietors of the different stores leave no effort untried to offer attractions to the promenaders, and particularly to the fair sex. This has been more noticeable since the opening of the season, and the different establishments vie with each other in displaying the latest novelties in

their line. Aming the numerous stores i. . line this street, No. 306, the establishment of Mr. LEVY DRUCKER is one of the best. It is large and commodious, and Mr. D. has filled his shelves with the rarest fabrics that the market demands. The staple and Ency goods are also perfect, and arrangements rave been made to accommodate a large wholesale and retail trade. A visit to No. 306 will convince even the most incredulous of the completeness of the stock. The ladies, who are the most inveterate shoppers, and who always know where the cheapest and best articles can be obtained, never fail to patronize Mr. DRUCKER.

MAYOR'S COURT. - An economical individual, whose chimneys were not swept for sixteen months, was called up for a non-observance of this practice, but, on proving that the chimney in question was never used, he was allowed to depart in peace. A colored female who suffered her chimney to burn out during the late rain, was only excused on account of the weather, and the fact that the con-

ractor had not made his monthly call. One of the boys in blue, who was evidently ar artist, and had got a black eye to give a coloring o his mug, was found in a state of syncope on the pavement. The usual remedies were adminis-

tered and \$5 extracted. A son of Ham, who took after his grandfather NOAH and got very drunk, was arrested for knocking at every house in the street. He stated that he had forgot the number, and was -', making investigations; but the final elucidation cost him

A stabbing affray, in which one Higgins smote an imbecile named Cerille with his stilleto, was examined, and the said Higgins protesting that he was non compos mentis, otherwise drunk, he was turned over to the tender mercies of the law and his weapon confiscated.

Two gay and festive darkies, who rejoiced in the uncommon name of Smith, and yet who swore that they were not brothers, became very happy under the influence of corn juice, and in order to show that he had seen the Hanlons, the junior Smith gashed his confrere with a razor. As only a little blood was spilt, and the agressor promised to pay the doctor's bill, he was fined \$10, and read a lecture concerning sharp tools.

A lively African, who had a fondness for sweet sounds, filled himself with bad whiskey, and then tried to beat a tattoo on every door. As it was after the prescribed hour, he was instructed in the tune of taps and taken to the Guard House. His musical efforts cost him \$5, and as he did not play by note, he retired to think about it.

Alonzo the Brave was arraigned for stealing, but as neither prosecutor nor witness were present the immaculate Alouzo was discharged, with a caution to look to his ways.

A romantic individual, who imagined that he was Queen street and disturbed the neighborhood with his snoring. He was promptly hauled off by the scriptural rites.

A few minor cases in which the individuals proved that they were strangers and had never heard of a city ordinance were discharged, with cautions to be better posted in future

A New York farmer, of practical experience in vineyard culture, will engage in the business with a party having the necessary capital, with an ulterior view to the manufacture of wine. The capital required may be graduated to correspond with the extent to which it would be advisable to go, and used at intervals. If the business be conducted with due regard to the con essertial to success, it will pay soon and well.

The disorganization of labor demands a change in agricultural pursuits, and probably in no direction does it point with better prospects than to wine growing. Grape culture in the Northern States is attended with so much uncertainty, in consequence of the severe win-ters, that it is yet doubtful if it can be made an interest of any considerable importance beyond speculating in hardy varieties. In the light of this experience, South Carolina may seize the prize, as some compensation for the wrongs inflicted on her by fanaticism in the cause of planters or farmers will find grape culture a substitute for their chief staple, which requires but trifling labor, and vastly more profitable. This is 1:0 patent way to get rich, nor yet is it a temptation to speculate in illusions with a promise of fabulous results; but, as the "early bird catches the worm," so the first to enter this unbounded field of labor will be the first to participate with justice in the largest measure of whatever is valu-

able in the legitimate pursuits of life. Inquiries may be made to the Editors of this paper, and to RICHARD DALLY, care of JOHN W. CALD-WELL, No. 58 Beaver street, New York. March 5

COUNTRY.

The Daily South Carolinian at Columbia, is now sen to every Postoffice in the State. Being the officiel paper of the State, it will be found at the present time especially valuable to merchants and others desiring to avail themselves of a very large circulation.

THE PHŒNIX has a large circulation throughout the niddle and upper Districts of the State. Advertising rates as reasonable as the stringency of the money mar-ket will warrant. Merchants and others wishing to use the columns of the paper will address

JULIAN A. SELBY, Proprietor,

The Shivering Victims

Of Fever and Ague, who freeze to-day to burn to-mor row, might have been exempted from their present trials had they availed themselves in time of that safeguard against all malarious diseases, HOSTETTER'S STOMACH BITTERS. But if it is too late for prevention it is not too late for cure. A single bottle of this irresistible herbal tonic will stop the paroxysms, and a brief course of it will restore the patient to vigorous health. The prudent and thoughtful, however, who would rather forestal disease than wait for its assaults, will resort to this sure defence against intermittent and remittent fevers at the commencement of the season when they prevail. Now is the true to forearm the system against favor and ague, bilious complaints and dyspepsia—diseases which are often engendered, and always aggravated, by the chills and damps of Winter and early Spring.

SHAKSPEARE ON INTERMITTENTS. The Bard of Avon tells us that the "Sun in March sh agues," and the remark is as true now as it was three hundred years ago. But for unate ly, in these modern days March Agues can be prevented. HOSTETTER'S BITTERS, in a single week, will put the system in a condition to resist every species of intermittent fever. Or, if there is a predisposition to biliousness or dyspepsia, this unequalled regulator and invigorant will just as certainly prevent that. All the disorders common to the season of fogs and frosts may be held in abeyance by this potent antidote. They may also be ejected from the system, after they have made a lodgment there, by it: persevering use. It is therefore moral insanity for any family to be without it. Still it will afford, dering the process of decomposition, about three per cent. of Ammonia. The Oil (which is remarkably abundant) though not generally reckoned among Manures, being here associated with other less stable animal principles, cannot fail of adding to the value of the mixture, especially on light soils. The insoluble Phosphate being thoroughly organized and, at the same time, minutely divided, is also well adapted to a gradual appropriation by

the plant.

According to the present sample, COE'S SUPER
PHOSPHATE is a judiciously and faithfully manufactured Manure, and will not disappoint those who will
give it a trial. Even if cumployed alone, I should expect highly remunerative results.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencils, manufactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
nencil. TESTIMONIAL GOODS PURCHASED OF US DELIVERED TO pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; smooth lead; even the desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

MANHOOD AND THE VIGOR OF YOUTH MANHOOD AND THE VIGOR OF YOUTH restored in four weeks, by Dr. RICORD'S ESSENGE OF LIFE. Dr. Ricord (of Paris), after years of carest solicitation, has at length accaded to the earnest requests: of the American public, and appointed an Agent in New York for the sale of his valued and highly-prized Essence of Life. This wonderful agent will restore manhood to the most shattered constitutions, whether arising from excesses, the effects of climate, or natural causes. The time required to cure the mast inveterate case is four weeks; and if used according to printed instructions, which are very simple, failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. It is acknowledged by the medical press to be the greatest discovery ever made. Its developing powers are miraculous. Success in every case is as certain as that science overthrows ignorance. Dr. Ricord's Essence of Life is sold in cases, with full instructions for ase, at \$3, or four quantities in one for \$9.
